

## Gas Water Trap J-01P0.1G075

### I. Technical characteristics:

- Special process glass cover is adopted, which is easy to replace and filter and can stand 250 degree
- The filter core is visible and easy to change and clean
- Base material: PTFE/PP material optional
- Filter accuracy: 0.1um, 0.5um, 1um, 2um optional

### II. Technical parameter

- Sampling interface: with OD-6-1/4, NPT type connector, two
- Operating pressure: 5bar.abs
- Maximum capacity: 70cm<sup>3</sup>
- Filter material: Glass Fiber, silicon carbide(optional)
- Seal type: O type ring
- Bracket material: aluminum alloy
- Installation: wall mounted
- Filtration accuracy: 0.1-2um (optional)
